

# CZECH SPACE WEEK

An annual event held in the Czech Republic; is a significant celebration of space exploration, science, and technology. This week-long event brings together scientists, engineers, students, and space enthusiasts from across the country and beyond to explore the wonders of space and highlight the Czech Republic's contributions to the global space community.

**Are you a company interested in the rapidly growing space industry?  
Join us at Czech Space Week, the Czech Republic's premier festival celebrating all things in space!**

We are currently seeking potential partners, companies, and universities interested in presenting or providing speakers for the event. Additionally, we are planning a targeted business forum to foster collaboration and explore new opportunities.

**By attending, you'll have the chance to:**

- Network with potential partners and clients.
- Showcase your innovations.
- Engage in discussions.

**October 20-26, 2025**

# SPACE 2 BUSINESS

**We would like to invite you to THE space industry event in the Czech Republic. Within two days you can experience:**

- **Space EXPO** – featuring key space-industry players from the CEE region and beyond. Let us know if you'd like to have a booth in the expo area!
- **Conference panels** – focused on cooperation between regions and sectors.
- **Brokerage session** – B2B meetings between companies, startups, research institutions and other stakeholders searching for collaboration and market opportunities
- **Side events** – addressing various topics for both space non-space audiences.

**October 20-21, 2025**

Prague, Czech Republic
